- Member, National Institutes of Health - National Arthritis and Musculoskeletal and Skin Diseases Advisory Council Appointed by the Secretary of Health and Human Services, 2005–2009
- Department of Health and Human Services Maternal and Child Health Bureau. Objective Review Committee: Sickle Cell Disease and Newborn Screening Program, Bethesda, MD, September 2003
- National Institute of Dental & Craniofacial Research Review Panel - Special Emphasis Panel. Planning Grants and Pilot grants for research to prevent or reduce oral health disparities, Bethesda, MD, July 2002
- Conference Moderator, Building Capacity for Health Promotion in Minority-Serving Institutions. Assoc of State and Territorial Directors of Health promotion and Public Health Education, ASTDHPPHE— Denver, CO, May 2000
- Planning Committee Member, 15th National Conference on Chronic Disease Prevention and Control, Living Healthier, Living Longer: The Will and the Way Eliminating Health Disparities—Track 4, 2000
- Committee Member, Racial and Ethnic Health Disparities, APHA, 2000
- Member, Cancer Prevention and Early Detection Institute, Oncology Nursing Society, 2000
- Member, Tuskegee Legacy Committee; Committee drafted request for governmental apology for participants of USPHS Syphilis, 1997-2005

Current Awards and Grants

Sponsor: Genentech

Title: Developing a Longitudinal Health Initiative to Positively Impact the Cardiovascular and Cancer Health of Black/African American Men Nationally—The Kappa Alpha Psi Health Impact Initiative (KAPHII).

Goal: The specific purpose of this study is to address and understand a range of issues related to the overall health of B/AA men with a focus on cardiovascular disease and cancer.

Role— PI

Percent Effort: 20%

Primary Place of Performance: Moffitt Cancer Center

Total Award Amount - \$989,000

Project Dates: 05/01/2025 – 04/31/2029

Sponsor: COE/MCARES

Title: Artificial Intelligence for Widespread Awareness, Research and Education (AWARE): Establishing the Framework for Tailored AI Tools for Multiple Myeloma

Role: MPI

Percent Effort: 3%

Primary Place of Performance: Moffitt Cancer Center

Total Amount of Award - \$75,000

Project Dates: 04/01/2026 – 03/31/2027

Awards and Grants Submitted

Title: Empowering Patients: Developing an AI Conversational Avatar for Enhancing Patient Education and Decision-Making in Hematologic Cancer Treatment

Major Goals: Blood cancers, like Multiple Myeloma (MM), chronic lymphocytic leukemia (CLL), and diffuse large B-cell lymphoma (DLBCL), affect thousands of individuals each year, and disproportionately impact Black/African American and Hispanic communities. Our project seeks to address this gap by developing an innovative virtual conversational assistant powered by artificial intelligence (AI). This assistant will be available 24/7 to answer patient questions and provide guidance and support.

Status of Support: Pending (Not funded or did not hear back from the state)

Name of PD/PI: Green, B. Lee (corresponding) & Blue, Brandon

Source of Support: State of Florida Department of Health; Florida Cancer Innovation Fund (FCIF)

Performance Site: H. Lee Moffitt Cancer Center & Research Institute, Tampa, FL

Project Dates: 04/01/2025 – 03/31/2026 Total Direct Costs: \$305,006 Total Award: \$350,757

Title: Validation of Artificial Intelligence Tool for Improved Personalized Radiotherapy

Major Goals: We propose a comprehensive multi-level validation of an AI-developed tool for real-world chemoradiotherapy personalization. This validation will be both retrospective and prospective, ensuring robust and reliable results. Additionally, we will analyze the impact of behavioral metrics versus clinically recorded outcomes on decision making and the complexities of human-AI interactions.

Name of PD/PI: El Naqa, I./ Niraula, D./ Dilling, T./ Jim, H.

Role: Co-Investigator

Source of Support: NIH/NCI

Project Dates: 7/01/2025-06/30/2030

Total Direct Costs: \$2,425,130

Total Award: \$4,039,005

Title: Adaptive AI Performance Monitoring for Real-world Medical Imaging Applications

Major Goals: The main objective of this proposal is to address the existing gap in post-AI deployment in the clinical practice of medical imaging. Specifically, we address this challenge by developing the WATCH-AI platform for proactive monitoring and self-correction of AI applications in medical imaging and evaluating its performance in real-world multi-institutional settings of breast and lung cancer detection.

Name of PD/PI: El Naqa, I./ Hall, L./ van der Laan, M./ Trivedi, H./ Gichoya, J./ Gastounioti, A./

Shepherd, J./ Kinahan, P./ Braithwaite, D./ Deppen, S./ Herman, J./ Vachani, A./
Volkova, S.

Role: Co-Investigator

Source of Support: Advanced Research Projects Agency for Health (ARPA-H)

Project Dates: 7/01/2025-06/30/2029

Total Direct Costs: \$ 7,760,556

Total Award: \$ 9,977,555

Title: Unbiased Identification of Optimal Interventions to Maximize Mobile Lung Cancer Screening County-Level Outcomes Using Fairness-Aware and Causal AI

Major Goals: The purpose of our project is to improve underserved high-risk individuals' mobile lung cancer screening (LCS) outcomes at the county level by using advanced artificial intelligence techniques.

Name of PD/PI: Luo, Y./ Green, B./ Schabath, M.

Source of Support: NIH/NCI

Performance Site: H. Lee Moffitt Cancer Center & Research Institute, Tampa FL

Project Dates: 12/01/2025-11/30/2030

Total Direct Costs: \$1,250,000

Total Award: \$2,106,250

Florida Department of Health – James and Ester King Biomedical Research Program

Title: Integrating Explainable AI and Geospatial Analysis to Tailor Accurate and Fair Community-Based Eligibility Models for Lung Cancer Screening

Major Goals: Our long-term research goal is to customize efficient multi-level interventions to remove racial disparities in the uptake of LCS in different regions / communities of US and reduce overall lung cancer mortality rate. As an initial step, this project intends to develop accurate and fair community-based LCS eligibility models to eliminate racial disparities in the screening and test their performance at specific regions.

*Status of Support: Pending

Project Number: TBD

Name of PD/PI: Luo, Y.

Role: Co-PI/Multiple PI

*Source of Support: SOF FDOH-James and Esther King Biomedical Research Program

*Primary Place of Performance: H. Lee Moffitt Cancer Center and Research Institute, Tampa

Project/Proposal Start and End Date: 04/01/2024-03/31/2027

*Total Award Amount (Including Indirect Costs): \$299,238

Title: Customizing a “What-If Lung Cancer Screening” Eligibility Mechanism for Black and White Smokers to

Reduce Lung Cancer Mortality in the “Screening Deserts” and “Mortality Hotspots” of Florida

Major Goals: Our long-term research goal is to remove racial disparities in the uptake of lung cancer screening (LCS) in the “screening deserts” and “mortality hotspots” of Florida and reduce lung cancer mortality rates in these areas.

*Status of Support: Pending

Project Number: TBD

Name of PD/PI: Luo, Y.

Role: Co-PI/Multiple PI

*Source of Support: SOF FDOH-Florida Cancer Innovation Fund

*Primary Place of Performance: H. Lee Moffitt Cancer Center and Research Institute, Tampa

Project/Proposal Start and End Date: 12/01/2023-12/1/2024

*Total Award Amount (Including Indirect Costs): \$423,691

Title: Trustworthy Multi-Objective Multimodal Machine Learning Framework for Predicting Outcomes in Oncology

Major Goals: We plan to demonstrate a trustworthy (aka fair, transparent, and robust) multimodal AI (MAI) approach compliant with the NIST AI Risk Assessment Framework²¹ on large scale databases of lung of pancreatic cancers at Moffitt (EHR records, chemoradiotherapy treatment plans and dosimetry, PET/CT images, pathology, and genetic information) using deep learning methods with new transparency index analysis and compare performance with current techniques in the literature.

Status of Support: Not funded

Project Number: TBD

Name of PD/PI: El Naqa I / Rasool G (Green BL, Co-Investigator)

Source of Support: NIH/NCI - R01

Project/Proposal Start and End Date: 08/30/2024 – 08/29/2026

Total Award Amount (including Indirect Costs): \$ 4,000,000

Title: SHIP-1: Biomarker and Therapeutic Target to Reduce Health Disparities in African Americans with Pancreatic Cancer Major

Goals: The long-term goal of this research is to reduce the health disparities in pancreatic ductal adenocarcinoma (PDAC) experienced by African Americans. Understanding how Src-homology inositol phosphatase-1 (SHIP-1) regulates tumoricidal macrophages is a crucial step to determine its use as a therapeutic target.

Status of Support: Not funded

Project Number: R01CA284692

Name of PD/PI: Ghansah T.

Role - Co-Investigator

Source of Support: NIH/NCI - R01

Project/Proposal Start and End Date: 07/01/2024 – 06/30/2029

Total Award Amount (including Indirect Costs): \$645,498

Completed

Title: Health Equity Leadership Program (HELP): An Equity of Care Catalyst Development Program

Major Goals: The Health Equity program aims to provide multi-year grants to nonprofit organizations that can create a train-the-trainer program.

Status of Support: Completed

Project Number: 11455

Name of PD/PI: Villarroel de Chachula, D./ Green BL/ Sanchez J.- MPIs

Source of Support: Florida Blue Foundation

Primary Place of Performance: Moffitt Cancer Center

Project/Proposal Start and End Date: 12/14/2020 – 12/31/2024

Total Award Amount (including Indirect Costs): \$763,909

The Florida Health Equity Research Center (HERI)

Funding Agency – State of Florida Legislature

Role: Co-Principal Investigator

07/01/2013–06/30/2019

Amount: \$800,000

Moffitt Cancer Center

Navigator-Guided e-Psychoeducational Intervention for Prostate Cancer Patients and their Caregivers

Funding Agency: Patient Centered Outcomes Research Institute (PCORI)

Role: Co-Principal Investigator

07/01/13 - 10/30/17

Percent Effort - 20%

Amount – \$1,326,655

R01 Rivers (PI)

NIH/NIMHD

A Health IT-Based Psychoeducational Intervention for African American Prostate Cancer Patients

Role: Co-PI

07/01/2014–01/30/2017

Percent Effort: 5%

Amount: \$2,106,250

The University of South Florida and Moffitt Cancer Center Health Disparities Transdisciplinary Center of Excellence

1P20MD003375-01

Funding Agency—NIH— National Center for Minority Health and Health Disparities

Role: Co-Principal Investigator
04/01/09–03/31/2015
Percent Effort—25%
Amount – \$6,749,077

The University of South Florida and Moffitt Cancer Center Health Disparities Transdisciplinary Center of Excellence— Supplemental Grant on Comparative Effectiveness and Health Disparities
1P20MD003375-01 - Supplement
Funding Agency—NIH— National Center for Minority Health and Health Disparities
Role: Co-Principal Investigator
07/31/10 – 07/30/12
Percent Effort—3%
Amount – \$1,400,000

Examination of Health Literacy Needs of Patients of a Federally Qualified Health Center
Total Cost: \$33,000.00
Funding Agency: TAMU—Children, Youth and Families
Role: Principal Investigator
05/01/05 – 04/31/06
Tuskegee Legacy Project
Total Cost: \$105,000
Funding Agency: New York University
Role: Principal Investigator
10/01/03–9/31/07

Texas A&M University/Prairie View A&M University Collaboration: Reducing Health Disparities through Risk Reduction
Total Cost: \$1,099,969
Funding Agency: National Institutes of Health
Role: Principal Investigator
10/01/03 - 9/31/06

Developing Tools and Methods to study the Use, Impact, and Cost Effectiveness for Prostate Cancer Screening
Total Cost: \$452,963.00
Funding Agency: Centers for Disease Control and Prevention
Role: Principal Investigator
9/30/00 - 9/29/04

Effectiveness of community-wide strategies to promote oral health
Total Cost: \$349,806
Funding Agency: Centers for Disease Control and Prevention
Role: Co-Principal Investigator
09/30/01 - 09/29/03

Health Promotion and Disease Prevention Center
Total Cost: \$486,611
Funding Agency: Centers for Disease Control and Prevention
Role: Associate Director, Minority Health Affairs
02/01/99 - 01/31/04

Morehouse School of Medicine/The University of Alabama at Birmingham Cancer
Center Partnership
Total Cost: \$1,109,122
Funding Agency: National Cancer Institute
Role: Investigator
03/01/01 - 02/28/06

Hypertension and Adherence in Rural Practice
Total Cost: \$1,950,734
Funding Agency: National Institutes of Health
Role: Co-Investigator
09/30/01 - 08/30/05

Etiology of Geographic and Racial Differences in Stroke
Total Cost: \$696,095
Funding Agency: National Institutes of Health
Role: Co-Investigator
09/24/01 - 07/31/02

A Model Intervention for Increasing African Americans' Intent to Donate in Two
counties in Alabama
Total Cost: \$163,255.00
Funding Agency: National Institutes of Health
Role: Co-Investigator
10/01/00 - 9/30/03

Title: Deep South Network for Cancer Control: Special Populations Networks for
Cancer Awareness
Total Cost: \$6,939,719
Funding Agency: National Cancer Institute
Role: Co-Investigator
03/01/00 - 02/28/05

Analyzing the Gap in prostate cancer in White and Black men
Total Cost: \$301,342
Funding Agency: National Cancer Institute
Role: Co-Investigator
09/30/99 - 09/28/02

Mobility among older African Americans and Whites

Total Cost: \$186,141

Funding Agency: National Institutes of Health

Role: Investigator

06/01/98 - 05/31/03

Factors Affecting the Recruitment of minorities into Biomedical Studies: A Pilot Study of the Tuskegee Legacy Questionnaire

Total Cost: \$10,710.00

Funding Agency: Northeastern Minority Oral Research Center

Role: Principal Investigator

10/01/97 - 9/31/98

Recruitment of Minorities into Clinical Trials (Conference)

Total Cost: \$50,000.00

Funding Agency: National Cancer Institute

Role: Co-Investigator

08/96-09/97

Project AIM: Moving Adolescents from Anticipation to Delay of Coital Activity

Total Cost: \$473,269.00

Funding Agency: Centers for Disease Control

Role: Co-Investigator

09/96 - 10/98

A Comprehensive Health Promotion Program for African American Churches

Total Cost: \$600.00

Funding Agency: University of Alabama College of Education Research Grants Committee

Role: Principal Investigator

10/01/95 - 9/30/96

Inner City Residents Survey of Preventive Health Services Usage: Findings of the Head Injury Section

Total Cost: \$500.00

Funding Agency: Southeastern Comprehensive Head Injury Center

Role: Principal Investigator

02/01/94 - 01/31/95

Arthritis Help-Seeking Behaviors of African Americans

Total Cost: \$85,426.00

Funding Agency: National Institutes of Health – Research Supplements for Underrepresented Minorities

Role: Principal Investigator

05/01/93 - 04/30/94
